

Prof. Dr. Peter Goethals

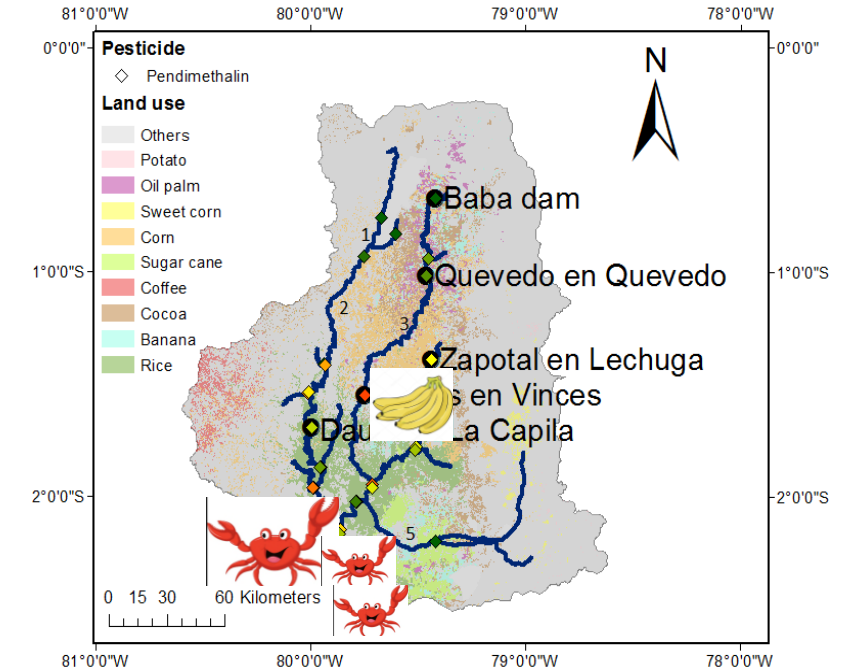

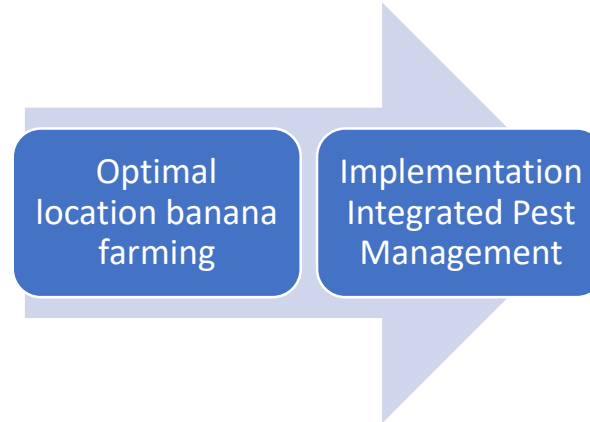

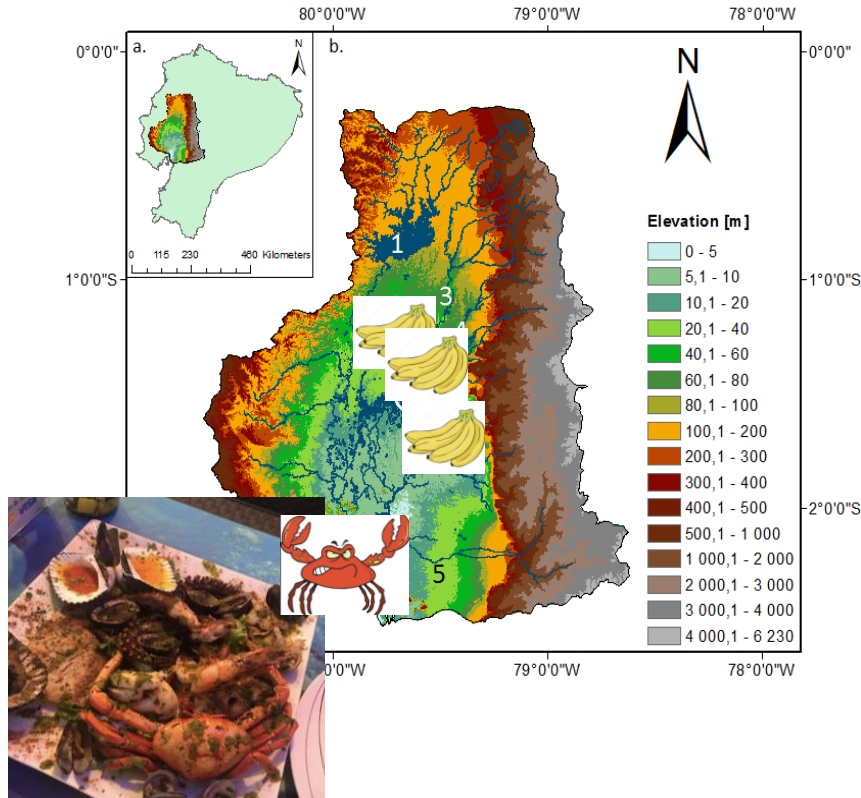

Technology augmented river basins: innovation as a basis for sustainability

Technology-augmented water systems: integrating GreenTech and HighTech

Starting from data and insights in the water systems

- Sustainable farming in basins connected to cities: example Guayaquil (Ecuador)

TO SELECT INVESTMENT IN INNOVATION AND APPLY TECHNOLOGY

Overview

Innovation in the water sector

Sudhir Murthy, IWA, USA

Water and sanitation in the Latin America

Sergio Campos, IDB, USA

Emerging technologies for water management

Will Sarni, Water Foundry, USA
