IWA-IDB Innovation Conference on Sustainable Use of Water: Cities, Industry and Agriculture

The international IWA-IDB Innovation Conference on Sustainable Use of Water: Cities, Industry and Agriculture will bring together water professionals from around the world, with a main focus on the American and European region. Participation of governmental institutions has been strongly encouraged, providing a unique setting for institutions and companies active within the water sector to improve their visibility. Moreover, it provides the opportunity to showcase and promote water technologies and services for both regulators and users.

To support this interaction, the event offers a range of Sponsorship packages, allowing you to tailor your organization's involvement and maximize your corporate exposure. The sponsorship opportunities are designed to cement your brand, products and/or services and can be fine-tuned to your needs. You will take advantage of branding rights, targeted IWA promotions, online and media exposure to exceptional professionals from 130 countries, that compose the IWA network.

Multiple levels of sponsorship are available: A Diamond Sponsorship; a Platinum Sponsorship; three Gold Sponsorships; three Silver Sponsorships per day; and up to 10 Bronze Sponsorships. For all sponsors (excl. Bronze) a booth area (2.5 m x 2.5 m) is provided.

DIAMOND (1x) 14,000 USD	SOLD	PLATINUM (1x) 10,000 USD	SOLD
